Popular

Publications

for the

Farmer and

Homemaker

List No. 5

1948

Compiled by ELEANOR W. CLAY

Office of Information

United States Department of Agriculture

NOTICE

The publications included in this list are of general interest to farmers and homemakers. They are arranged numerically and classified by subjects under two main groupings, "Bulletins for the Farmer" and "Bulletins for the Homemaker." All were available *free* at the time the list went to press.

It is requested that no one ask for more than 10 publications at one time. If more are desired, they may be purchased from the Superintendent of Documents, Government Printing Office, Washington 25, D. C. Prices will be quoted by the Superintendent of Documents upon request.

Exception.—Limited quantities of publications will be furnished for official use. Consideration will also be given to quantity requests from nonprofit organizations cooperating with the Department.

Restrictions are in effect against sending publications free to students. Teachers, however, may continue to receive limited quantities for school libraries.

HOW TO ORDER

When you request publications please use the order blanks provided for this purpose. By so doing you will hasten delivery. See pp. 27-31.

BULLETINS FOR THE FARMER

Order No.

Accident Prevention—*See also* under Fire Protection.

F 1678 Safe use and storage of gasoline and kerosene on the farm.

M 608 Watch your step: Avoid farm accidents.

Title First aid for flooded homes and farms.

Alfalfa—

F 944 Controlling the garden webworm in alfalfa fields.

F 982 Control of the green clover worm in alfalfa fields.

F 1642 Chalcid control in alfalfa-seed production.

F 1930 Prevention and control of alfalfa weevil damage.

L 229 The potato leafhopper, a pest of alfalfa in the Eastern States.

Animals—*See* under Livestock; specific animal.

Apples—

F 1380 Apple scald and its control.

F 1883 Apple varieties and important producing sections of the United States.

F 1897 Establishing and managing young apple orchards.

L 161 The eastern tent caterpillar.

L 187 Blight of pears, apples, and quinces.

**SAVE WHEAT———SAVE MEAT———
SAVE THE PEACE**

Barley—

F 1599 Scab of wheat and barley and its control.

F 1732 Growing barley for malt and feed.

M 131 A dangerous neighbor for wheat, oats, barley, and rye (Barberry).

Beans—*See also* under Gardening, Truck.

F 1915 Snap beans for marketing, canning, and freezing.

IS 61 Saving beans from mosaic.

IS 62 Saving beans from bacterial blight.

L 223 Growing field beans in humid areas.

W 99 Twelve points in grading dry edible beans.

Use order blanks on pages 27 to 31

Order No.

Beef Cattle—*See also* under Cattle Diseases and Insects; Livestock.

- F 1068 Judging beef cattle.
- F 1395 Beef-cattle production in the range area.
- F 1415 Beef on the farm: Slaughtering, cutting, curing.
- F 1592 Beef production on the farm.
- F 1600 Dehorning, castrating, branding, and marking beef cattle.
- F 1779 Beef-cattle breeds for beef and for beef and milk.
- F 1916 Beef-cattle for breeding purposes.
- L 239 Moderate grazing pays on California annual-type ranges.

Bees—

- C 702 Productive management of honeybee colonies in the Northern States.
- F 961 Transferring bees to modern hives.
- F 1713 The treatment of American foulbrood.
- L 113 Honey and some of its uses.

Berries—

- F 1026 Strawberry culture: South Atlantic and Gulf Coast regions.
- F 1043 Strawberry varieties in the United States.
- F 1882 Harvesting and handling cultivated cranberries.
- F 1891 Diseases of strawberries.
- F 1951 Blueberry growing.

Buildings—

- F 1318 Greenhouse construction and heating.
- F 1452 Painting on the farm.
- F 1460 Simple plumbing repairs in the home.
- F 1487 Practical hog houses.
- F 1582 Protection of log cabins, rustic work, and unseasoned wood from injurious insects.
- F 1660 The use of logs and poles in farm construction.
- F 1738 Farmhouse plans.
- F 1751 Roof coverings for farm buildings and their repair.
- F 1756 Selection of lumber for farm and home building.
- F 1772 Use of concrete on the farm.
- F 1865 Closets and storage spaces.
- F 1889 Fireplaces and chimneys.
- F 1911 Preventing damage to buildings by subterranean termites and their control.
- F 1950 Sewage and garbage disposal on the farm.
- F 1975 Farm buildings from home-grown timber in the South.

List your selections in numerical order

Order No.

Buildings—Continued.

- F 1993 Decay and termite damage in houses.
- L 56 Preventing cracks in new wood floors.
- L 124 Sash greenhouses.
- M 358 Use and abuse of wood in house construction.
- M 579 Building with logs.
- M 619 Your farmhouse . . . How to plan remodeling.

Butchering—

- F 1055 Country hides and skins: Skinning, curing, and marketing.
- F 1186 Pork on the farm: Killing, curing, and canning.
- F 1415 Beef on the farm: Slaughtering, cutting, curing.
- F 1807 Lamb and mutton on the farm.
- W 68 Smokehouses and hog-slaughtering equipment.
- W 108 Curing pork country style.

Cattle—*See* under Beef Cattle; Cattle Diseases and Insects; Dairy Cattle.

Cattle Diseases and Insects—

- F 666 Foot-and-mouth disease.
- F 980 The spinose ear tick and methods of treating infested animals.
- F 1017 Cattle scab and methods of control and eradication.
- F 1018 Hemorrhagic septicemia "shipping fever" of cattle.
- F 1057 Cattle-fever ticks and methods of eradication.
- F 1355 Blackleg: Its nature, cause, and prevention.
- F 1736 Anthrax.
- F 1871 Brucellosis of cattle (Bang's disease, infectious abortion).
- L 75 Warts on cattle.
- M 384 Benefits of eradicating Bang's disease.

Chickens—*See* under Poultry.

Clover—

- F 971 The control of the clover-flower midge.
- F 1929 Persian clover.
- L 93 Red-clover seed production in the Inter-mountain States.
- L 98 Red-clover failure in relation to anthracnose in the southern part of the clover belt.
- L 119 White clover.

Use order blanks on pages 27 to 31

Order No.

Clover—Continued.

- L 160 Crimson clover.
- L 176 Strawberry clover.

Conservation—*See* under Forestry; Soil and Water Conservation.

Corn—

- C 657 Mineral-oil treatment of sweet corn for earworm control.
- F 739 Cutworms and their control in corn and other cereal crops.
- F 875 The rough-headed corn stalk-beetle in the Southern States and its control.
- F 948 The rag-doll seed tester: Its use in determining what ears of corn are fit for seed.
- F 1025 The larger corn stalk-borer.
- F 1634 Growing sweet corn for the cannery.
- F 1651 The corn earworm as an enemy of field corn in the Eastern States.
- F 1714 Corn culture.
- F 1878 Bacterial wilt of corn.
- F 1976 Handling and storing soft corn on the farm.
- L 212 The sand wireworm.
- L 225 Protecting market sweet corn from the European corn borer.
- W 58 Victory gardeners can prevent earworms from entering their corn.

Cotton—

- C 393 Care and maintenance of cotton-gin saws and ribs.
- C 467 Care and repair of cotton-gin brushes.
- F 831 The red spider on cotton and how to control it.
- F 1802 Modernizing cotton gins.
- IS 41 7 steps to help you face the future with cotton.
- L 151 Effects of feeds and saw speeds on cotton turn-out and quality.
- L 169 Preventing gin damage to cotton.
- L 198 Cottonseed treatment.
- L 212 The sand wireworm.
- L 216 Cotton-gin maintenance.
- L 217 Cotton ginning for pure-seed preservation.
- L 241 Preventing cotton-press damage.
- M 484 Cotton or boll weevils.
- W 46 How to increase cottonseed-oil production.

List your selections in numerical order

Order No.

Cottonseed—*See* under Cotton.

Cucumbers—*See also* under Gardening, Truck.

F 1563 Cucumber growing.

Dairy Cattle—*See also* under Cattle Diseases and Insects; Livestock.

F 1412 Care and management of dairy bulls.

F 1422 Udder diseases of dairy cows.

F 1470 Care and management of dairy cows.

F 1610 Dairy farming for beginners.

F 1626 Feeding dairy cows.

F 1769 Dairy-cattle judging.

F 1830 Cooperative dairy bull associations.

F 1974 The dairy-herd-improvement association program.

Dairy Products—

F 976 Cooling milk and cream on the farm.

F 1675 Care of milk utensils on the farm.

L 177 The pasteurization of milk.

L 213 Sour cream: How to prepare and use it at home.

SCIENCE IN FARMING

Copies of the 1943-47 Yearbook of Agriculture entitled "Science in Farming" may be purchased from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., for \$2.00 a copy. The Department has no copies available for distribution.

Diseases—*See* under animal or crop attacked.

Note.—Some information on diseases is usually included in bulletins on the general care of animals or culture of crops.

Drug Plants—

C 581 Harvesting pyrethrum.

F 663 Drug plants under cultivation.

F 1184 Ginseng culture.

Eggs—*See* under Poultry.

Erosion—*See* under Soil and Water Conservation.

Farm Management—*See also* under Finances; Soil and Water Conservation; and specific animal or crop.

F 1132 Planning the farmstead.

F 1961 Getting started in farming.

L 165 Soil-depleting, soil-conserving, and soil-building crops.

L 214 Plowing terraced land.

M 485 Seedtime and harvest today.

Use order blanks on pages 27 to 31

Order No.

Feeds—*See* under specific crop.

Fertilizers—

- F 1845 The liming of soils.
- IS 46 Food crops need phosphate.

Fiber Crops—*See also* under Cotton; Flax.

- F 1935 Hemp.

Finances—

- F 1962 Useful records for family farms.
- L 123 The farmer's share of the consumer's food dollar.
- M 554 Farm bookkeeping and the Federal income tax.
- M 599 Farm and home financial planning.

Fire Protection—

- F 1678 Safe use and storage of gasoline and kerosene on the farm.

Fish—

- F 1983 Farm fishponds for food and good land use.

Flax—

- F 1728 Flax-fiber production.
- F 1747 Flaxseed production in the North Central States.
- F 1793 Flaxseed production in the far Western States.

Flaxseed—*See* under Flax.

Forage Crops—*See also* under Alfalfa; Clover; Grasses; Legumes; Soybeans.

- C 494 The Texas leaf-cutting ant and its control.
- F 1003 How to control billbugs destructive to cereal and forage crops.
- F 1153 Cowpeas; Utilization.
- F 1275 Weevils in beans and peas.
- F 1539 High-grade alfalfa hay: Methods of producing, baling, and loading for market.
- F 1699 Growing root crops for livestock.
- F 1770 High-grade timothy and clover hay: Methods of producing, baling, and loading for market.
- F 1840 Kudzu for erosion control in the Southeast.
- F 1844 The culture and use of sorghums for forage.
- F 1850 The armyworm and its control:
- F 1852 Lespedeza culture and utilization.
- F 1928 Mormon crickets and their control.

List your selections in numerical order

Order No.

Forage Crops—Continued.

- F 1973 Irrigated pastures for forage production
and soil conservation.
F 1980 Crotalaria culture and utilization.
L 72 Measuring hay in stacks.
L 240 Kobe, a superior lespedeza.
W 97 Making high-grade hay.

Forest Products—

- F 744 The preservative treatment of farm tim-
bers.
F 1210 Measuring and marketing farm timber.
F 1459 Selling black walnut timber.
F 1582 Protection of log cabins, rustic work, and
unseasoned wood from injurious in-
sects.
F 1907 Equipment and methods for harvesting
farm woodland products.
F 1975 Farm buildings from home-grown timber
in the South.
F 1984 Modern turpentine practices.
F 1994 Tree planting in the Central Piedmont
and Southern Appalachian Regions.
IS 36 Longer life for poles and posts.
M 509 Operating small sawmills in wartime.
M 579 Building with logs.
Title What forests give.

Forestry—

- F 1256 Slash pine.
F 1405 The windbreak as a farm asset.
F 1477 Preventing damage by *Lycus* powder-
post beetles.
F 1486 Long-leaf pine primer.
F 1492 Arbor Day: Its purpose and observance.
F 1517 Loblolly pine primer.
F 1671 Shortleaf pine.
F 1824 The Black Hills beetle, a serious enemy of
Rocky Mountain pines.
F 1885 Treatment of white pines infected with
blister rust.
F 1887 Reducing losses from tree diseases in
eastern forests and farm woodlands.
F 1892 Pruning southern pines.
F 1940 Woodlands in the farm plan.
IS 2 Guide for cutting loblolly pine of the
Eastern Shore.
IS 3 Guide for cutting Allegheny northern
hardwoods.
IS 4 Guide for cutting New England northern
hardwoods.
IS 5 Guide for cutting oak forests.

Use order blanks on pages 27 to 31

Order No.

Forestry—Continued.

- IS 6 Guide for cutting red spruce.
- IS 7 Guide for cutting eastern white pine.
- IS 10 What are we aiming at? A forest conservation program.
- IS 13 Don't kill the forest goose.
- IS 17 Better management on southern Coastal forest ranges.
- IS 29 Farm woodland management in the Western Gulf Region.
- IS 34 Forestry and jobs.
- IS 35 Farmer Jones' timber crop.
- L 29 The farm woods: A savings bank paying interest.
- L 86 Protect hardwood stands from grazing.
- L 155 Growing nursery stock of southern pines.
- L 156 Harvesting and selling seed of southern pines.
- L 159 Planting southern pines.
- L 161 The eastern tent caterpillar.
- L 168 Dual-purpose pines.

NO STATE PUBLICATIONS

The Department does not distribute publications of State agricultural colleges, experiment stations, extension services, or State departments of agriculture. Requests for such publications should be made direct to those institutions.

- L 175 Eradication of the cultivated black currant in white pine regions.
- L 183 Cankerworms.
- L 242 The spruce budworm.
- M 247 Forestry and permanent prosperity.
- M 373 State forests for public use.
- M 388 Living and forest lands.
- M 543 Some plain facts about the forests.
- W 82 Preventing tanbark deterioration.

Fruits—*See also* under Apples; Berries; Grapes; Peaches.

- C 396 A method of harvesting grapefruit to retard stem-end rot.
- F 685 The native persimmon.
- F 776 Growing cherries east of the Rocky Mountains.
- F 1001 Growing fruit for home use.
- F 1249 Olive growing in the southwestern United States.
- F 1369 Bridge grafting.

List your selections in numerical order

Order No.

Fruits—Continued.

- F 1372 Plum and prune growing in the Pacific States.
- F 1522 The home fruit garden on the northern Great Plains.
- F 1821 Containers for fruits and vegetables.
- F 1870 Pruning hardy fruit plants.
- F 1876 Irrigation problems in citrus orchards.
- F 1895 Land slugs and snails and their control.
- L 161 The eastern tent caterpillar.
- L 172 Why fruit trees fail to bear.
- L 178 Dwarf fruits.
- L 179 The native papaw.
- L 183 Cankerworms.
- L 187 Blight of pears, apples and quinces.
- L 194 The oriental persimmon.
- L 202 Grafting-wax melter.
- L 221 The home fruit garden in the central Southwestern States.
- L 222 The home fruit garden in the northern Great Plains, northern Mountain, and Intermountain States.
- L 224 The home fruit garden in the Pacific Coast States and Arizona.
- L 227 The home fruit garden in the North-eastern and North Central States.
- L 236 Preventing damage to commercial dried fruits by the raisin moth.

Fur-bearing animals—*See also* under Rabbits.

Note.—Information on breeding, raising, producing and marketing of domestically raised fur-bearing animals address requests to the United States Department of Agriculture, Washington 25, D. C.

Gardening, Truck—*See also* under Corn; Cucumbers; Onions; Potatoes; Sweetpotatoes; Tomatoes.

- C 530 The vegetable weevil.
- C 644 The marketing of greens.
- C 657 Mineral-oil treatment of sweet corn for earworm control.
- F 232 Culture and uses of okra.
- F 1253 Seed peas for the canner.
- F 1318 Greenhouse construction and heating.
- F 1390 Vegetable seeds for the home and market garden.
- F 1396 The dasheen: A southern root crop for home use and market.
- F 1418 Lettuce growing in greenhouses.
- F 1646 Asparagus culture.
- F 1673 The farm garden.

Use order blanks on pages 27 to 31

Order No.

Gardening, truck—Continued.

- F 1735 Pea diseases and their control.
- F 1743 Hotbeds and coldframes.
- F 1821 Containers for fruits and vegetables.
- F 1863 The turnip aphid in the Southern States and methods for its control.
- F 1878 Bacterial wilt of corn.
- F 1886 The beet leafhopper.
- F 1895 Land slugs and snails and their control.
- F 1915 Snap beans for marketing, canning, and freezing.
- F 1920 Growing peas for canning and freezing.
- F 1945 The pea aphid on peas and methods for its control.
- F 1953 Lettuce varieties and culture.
- F 1957 Cauliflower and broccoli varieties and culture.
- L 128 Production of spinach.
- L 134 Production of water cress.
- L 135 Production of salsify or vegetable-oyster.
- L 138 Production of garlic.
- L 139 Production of roselle.
- L 140 Production of peppers.
- L 142 Production of turnips and rutabagas.
- L 157 Production of radishes.
- L 220 Storage of vegetable seeds.
- L 223 Growing field beans in humid areas.
- L 225 Protecting market sweet corn from the European corn borer.
- L 226 The pepper weevil.
- L 237 Control of mole crickets by use of poisoned baits.
- W 99 Twelve points in grading edible beans.

Goats—

- F 920 Milk goats.
- F 1943 Diseases of sheep and goats.
- L 13 Sheep and goat lice: Methods of control and eradication.

Grains—*See also* under Barley; Corn; Oats; Rice; Sorghums; Wheat.

- F 739 Cutworms and their control in corn and other cereal crops.
- F 1003 How to control billbugs destructive to cereal and forage crops.
- F 1162 Proso, or hog millet.
- F 1217 The green-bug or spring grain-aphis: How to prevent its periodical outbreaks.
- F 1627 The Hessian fly and how losses from it can be avoided.

List your selections in numerical order

Order No.

Grains—Continued.

- F 1657 The Great Basin wireworm in the Pacific Northwest.
- F 1798 Control of common white grubs in cereal and forage crops.
- F 1811 Control of insects attacking grain in farm storage.
- F 1850 The armyworm and its control.
- L 195 Mealworms.
- M 131 A dangerous neighbor for wheat, oats, barley, and rye (Barberry).

Grapes—

- F 1785 Muscadine grapes.
- F 1893 Control of grape diseases and insects in eastern United States.
- F 1936 Grapes for different regions.

RODENT CONTROL

(Rats, mice, gophers, moles)
Apply to Fish and Wildlife Service
Department of the Interior
Washington 25, D. C.

Grasses—*See also* under Range Management.

- F 1126 Sudan grass.
- F 1433 Cultivated grasses of secondary importance.
- F 1850 The armyworm and its control.
- L 104 Crested wheatgrass.
- L 171 The timothy crop.
- L 180 How to keep and increase black grama on southwestern ranges.
- L 196 The ryegrasses.

Grazing—*See* under Range Management.

Hay—*See* under Forage Crops.

Herbs—

- F 1977 Savory herbs: Culture and use.

Hides—

- F 1055 Country hides and skins: Skinning, curing, and marketing.
- F 1334 Home tanning of leather and small fur skins.

Hogs—

- F 1085 Hog lice and hog mange: Methods of control and eradication.
- F 1186 Pork on the farm: Killing, curing, and canning.

Use order blanks on pages 27 to 31

Order No.

Hogs—Continued.

- F 1357 Castration of hogs.
- F 1437 Swine production.
- F 1455 Fitting, showing, and judging hogs.
- F 1487 Practical hog houses.
- F 1490 Hog-lot equipment.
- F 1787 Internal parasites of swine.
- F 1914 Diseases of swine.
- L 34 Trichinosis: A disease caused by eating
 raw pork.
- L 102 Eradicating tuberculosis from poultry
 and swine.
- L 108 Controlling kidney worms in swine in
 the Southern States.
- W 68 Smokehouses and hog slaughtering equip-
 ment.
- W 108 Curing pork country style.

Honey—*See* under Bees.

Horses—

- F 619 Breeds of draft horses.
- F 1146 Dourine of horses.
- F 1368 Breaking and training colts.
- F 1419 Care and management of farm work
 horses.
- F 1503 Horse bots and their control.
- F 1535 Farm horseshoeing.
- F 1819 Infectious anemia (swamp fever).

Insects—Insecticides—*See* under animal or crop at-
tacked.

Note.—Some information on insects is often included in bulletins on general care and culture of animals and crops. Information on control of insects includes the proper insecticide to use.

Irrigation—

- F 1846 Supplemental irrigation.
- F 1867 Sugar-beet culture under irrigation in the
 northern Great Plains.
- F 1876 Irrigation problems in citrus orchards.
- F 1973 Irrigated pastures for forage production
 and soil conservation.

Leases—

- F 1969 Better farm leases.

Livestock—*See also* under specific animal.

- F 666 Foot-and-mouth disease.
- F 980 The spinose ear tick and methods of
 treating infested animals.

List your selections in numerical order

Order No.

Livestock—Continued.

- F 988 Larkspur or "poison weed."
- F 1054 The locoweed disease.
- F 1069 Tuberculosis in livestock: Detection, control, and eradication.
- F 1355 Blackleg: Its nature, cause, and prevention.
- F 1699 Growing root crops for livestock.
- F 1721 Determining the age of farm animals by their teeth.
- F 1736 Anthrax.
- F 1753 Livestock for small farms.
- F 1764 Growing and feeding grain sorghums.
- F 1991 The use of disinfectants on the farm.
- IS 47 United States meat stamps.
- L 38 Maintaining the health of livestock in transit.
- L 88 Poisoning of livestock by plants that produce hydrocyanic acid.
- MC 12 A handbook for better feeding of livestock.

REMITTANCES

Remittances for publications of the Federal Government should be sent direct to the Superintendent of Documents, Government Printing Office, Washington 25, D. C. His office is not located in the Department of Agriculture.

Lumber—*See* under Forest Products.

Machinery and Other Equipment—

- F 948 The rag-doll seed tester: Its use in determining what ears of corn are fit for seed.
- F 1078 Harvesting and storing ice on the farm.
- F 1426 Farm plumbing.
- F 1490 Hog-lot equipment.
- F 1675 Care of milk utensils on the farm.
- F 1678 Safe use and storage of gasoline and kerosene on the farm.
- F 1690 Plowing with mold-board plows.
- F 1754 Care and repair of mowers and binders.
- F 1797 Implements and methods of tillage to control soil blowing on the northern Great Plains.
- F 1802 Modernizing cotton gins.

Use order blanks on pages 27 to 31

Order No.

Machinery and Other Equipment—Continued.

- F 1907 Equipment and methods for harvesting farm woodland products.
- F 1931 Care and use of rope on the farm.

RADIO BROADCASTS

Listen to—

NATIONAL FARM AND HOME HOUR

Saturdays over stations associated with the NATIONAL
BROADCASTING COMPANY

1:00 p. m. Eastern Standard Time
12:00 p. m. Central Standard Time
11:00 a. m. Mountain Standard Time
10:00 a. m. Pacific Standard Time

NATIONAL FARM AND HOME HOUR is carried on all NBC stations. In it is a 5-minute pick-up from Washington (USDA); a 2-minute digest of grain, cotton and livestock markets furnished by USDA; and frequent special features.

Listen to—

THE AMERICAN FARMER

Saturdays over stations associated with the AMERICAN
BROADCASTING COMPANY

12:30 p. m. Eastern Standard Time*
11:30 a. m. Central Standard Time*
10:30 a. m. Mountain Standard Time*
9:30 a. m. Pacific Standard Time**

THE AMERICAN FARMER includes a 5-minute discussion from the United States Department of Agriculture, entitled "The Business Side of Farming." Other portions of the program include broadcasts from USDA research laboratories, Land Grant Colleges, and special agricultural events in different parts of the United States. It is carried by about 180 stations.

*If you are on Standard Time when Daylight Saving is in effect, AMERICAN FARMER is heard one hour earlier than noted above.

**The West Coast branch of the network may release the program some time later on the same day.
